Python 3.0

PROJECTS...

MERN Stack Projects

- An Anonymous Group chat application.
- Google Search Page with Google Custom Search API.
- Clone Website of Amazon, Tinder, Messaging Application with google Auth and a personal portfolio.

Tech Stack: JS-ES6, React JS, Redux, Node.js, Express JS, FireStore/MongoDB

Smart Domestic Energy Management and Conservation

A smart module to control the entire house remotely.

Platform: Java, Android, IoT

Team Size:

Live Digital Traffic Management using Bay Detection and

Prioritized queuing system (Patent Pending)

Managing live traffic and automatic controlling of signals based on lane traffic density, pothole detection, emergency vehicle clearance

Platform: Java, Python, Android, IoT, ML

Team Size:

Real time AI Face Detection and Vehicle/Pedestrian Detection using Python

Platform: Python with OpenCV (CV2)
